Development of a training program
for enhancing the adaptation of
plastic SMEs business models to
Industry 4.0

Co-funded by the
Erasmus+ Programme
of the European Union

DURATION: 01/NOV/2018 to 31/OCT/2020

"The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein."

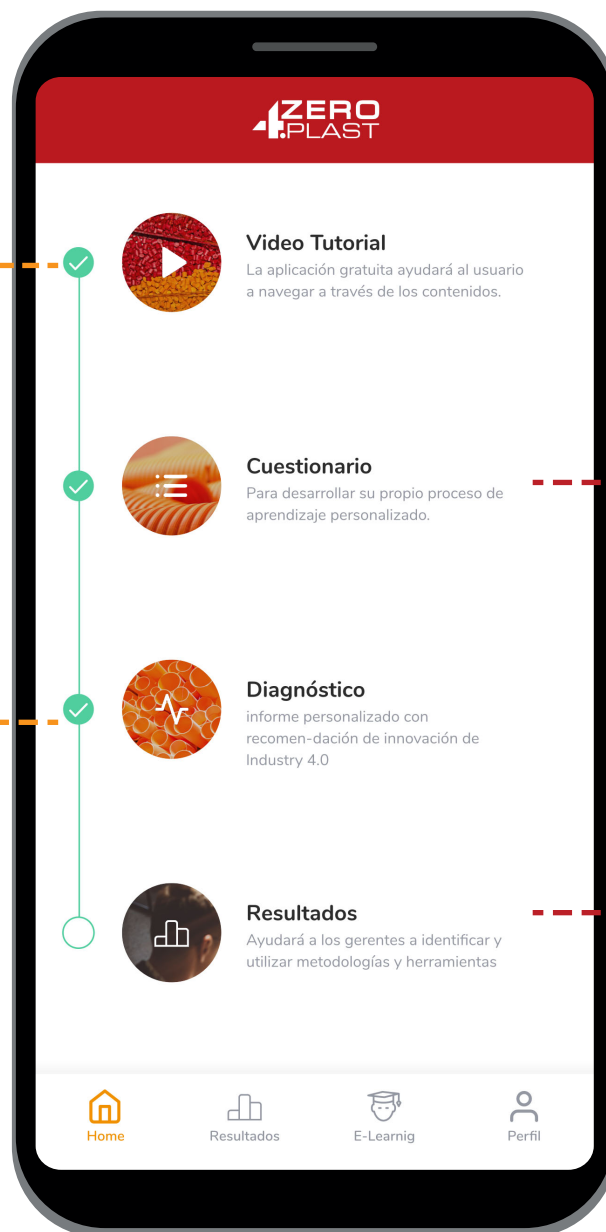

STEP 1 START FROM THE APP

This is your first step to learn how to apply Industry 4.0 to the plastics industry: just download the free app and, after registering, an introductory video will inform you about the outcomes of the learning process. Then, you'll be guided through a simple 3-steps process to define which is the best strategy towards smart digital innovation in your Company.

STEP 3 ASSESS YOUR COMPANY

In this step, you will be asked some simple questions to assess your company situation and potentials in terms of Industry 4.0 Decision-making process. This will support the user to prioritize and orientate strategic decisions getting profit of specific enabling technologies and Industry 4.0 organizational advance knowledge.

STEP 2

IMPROVE YOUR KNOWLEDGE

Depending on your knowledge level, the app will provide you with a personalised learning track which will cover different topics like:

- Impact of I4.0 in Plastic SMEs (Financial/Management, Operational, Market, HR/Competences)
- Basis of I4.0 (Digital Transformation, Virtualization, Additive Manufacturing, Robots)
- Strategy Innovation Management (Business Model Development, Strategic Diagnosis, KPI indicators, Planning a strategic innovation)

STEP 4

GET YOUR REPORT

A personalised report based on your answers to questionnaire in step 3 will be generated to support the company to define an Industry 4.0 strategy.
